

Compatibilizer

The compatibilizer of KT-2 or KT-3 is the blend of maleic anhydride grafted acrylonitrile butadiene styrene (ABS), which is used as an interfacial modifier of ABS or acrylonitrile styrene copolymer (AS) for filling fiber or mineral, or as compatibilizer of the alloy of polycarbonate (PC) and ABS. They have higher impact strength and grafted rate.

Product Specification

Product No.	Melt Flow Rate (MFR) (200°C, 5kg, g/10min)	Grafted Rate (%)	Density (g/m ³)	Substrate	Color
KT-2	1.0 - 4.0	High	1.03-1.07	ABS	Light Yellow
KT-3	1.0 - 4.0	Very High	1.00-1.05	ABS	Light Yellow

Dosage

5%, the proportion of product increases or decreases properly according to the requirement of the performance and the balance of the cost.

Packing, Storage And Transportation

The product is packed in 25Kg kraft paper bag lined with a plastic bag.

According to the requirement of non-dangerous goods, it is stored and transported under dry conditions to avoid sunlight and rain.
