

Compatibilizer

Compatibilizer KT-2M is a multi-element copolymer of polybutadiene rubber, styrene, acrylonitrile, and maleimide monomers; It is used as a compatibilizer for the alloy materials such as polyamide/acrylonitrile butylene styrene(PA/ABS) and polyamide/acetylsalicylic acid(PA/ASA), and improves the toughness and the stiffness of the alloy; it can serve as a heat-resistance for ABS.

Product Specification

Product No.	Melt Flow Rate(MFR) (200℃,5kg,g/10min)	Grafted Rate(%)	Density(g/m ³)	Substrate	Color
KT-2M	20 - 40	Very High	1.05-1.09	ABS	Light Yellow

Performance Comparison

Product Photo (KT-2M Pellets)

Dosage

The proportion of product increases or decreases 5%-10% properly according to the requirement of the performance and the balance of the cost.

Packing, Storage And Transportation

The product is packed in 25Kg kraft paper bag lined with a plastic bag.

According to the requirement of non-dangerous goods, it is stored and transported under dry conditions to avoid sunlight and rain.
